**King County
Elections**

Dear King County Voters,

This is an exciting year. New voter registrations are pouring in and there is an almost contagious energy about the elections process. **It's important that we get it right.**

There is a new primary that changes how we vote and we're doing all we can to dispel any confusion about the new ballot and to remind people of the importance of their vote. Not everyone likes the changes in the new primary, but most are convinced that the right to vote is more important than the details of how the election works.

So we begin this new chapter in Washington's history – a new primary where voters are asked to choose a party preference and only vote for candidates of that party along with the nonpartisan contests and ballot measures. The General Election remains unchanged.

There are three important points to remember so your vote will count –
It's as simple as 1-2-3:

1. **Choose a party** – mark your preference at the start of your ballot;
2. **Vote for candidates within that party** – the ballot is color-coded and labeled to help you locate candidates of your party choice; and
3. **Complete the ballot** – vote in the nonpartisan contests and on ballot measures – even if you choose not to select a party.

Throughout the voters' pamphlet we've included information about how the new primary works and reminders to follow the simple three step instructions. The pamphlet is organized to match the layout of the new ballot with sections of candidate statements and photos, followed by information on the nonpartisan contests and ballot measures.

Regardless of what you think about the new primary, your vote is too important for it not to count. If you have questions or need assistance, please call King County Elections at (206) 296-VOTE or visit us on the Web at www.metrokc.gov/elections.

Please vote – it is our best demonstration of democracy.

Answers

To Your Most Asked Questions

Q&A on the New Primary

1. How does the new primary change how I vote?

The new system requires you to select a party preference if you want to vote for candidates running for partisan offices. For the first time, you may vote only for the candidates in one political party in the primary. Your privacy will be protected; no record of your political party selection will be kept.

You will cast your votes by following three easy steps:

1. Choose a party by making your selection at the top of the ballot.
2. Vote for candidates in that party (each party has its own section on the ballot).
3. Complete the ballot by voting in the nonpartisan contests and on ballot measures, even if you choose not to select a party.

2. What will the ballot look like?

The single ballot provides a place to indicate your party preference (Democratic, Republican or Libertarian). It then presents the partisan contests in three sections, one for each party. Nonpartisan contests and ballot measures, available to all voters, are on the back of the ballot.

New ballot instructions are provided. The ballot is color coded to assist voters in making their party selection and then locating the part of the ballot dedicated to that party.

3. Is there a change in the General Election?

No. The changes apply to the Primary Election only.

4. How do the changes affect nonpartisan offices like judges and issues on the ballot?

Your opportunity to vote for candidates for nonpartisan offices and on ballot measures is not affected by this new law.

5. Why has the Primary changed?

As a result of lawsuits filed by the Democratic, Republican and Libertarian parties, federal courts found Washington's blanket primary to be unconstitutional. Following this ruling, the Washington State Legislature adopted a new primary law that provided for two distinct types of primaries. Governor Gary Locke vetoed one of the models and signed the other — the "Montana primary" — into law, an action the Supreme Court upheld.

6. Will my party choice be public?

No. Voters will indicate their party preference on the ballot, and no record is maintained that links that choice back to the voter.

7. What happens if I don't choose a party?

If you do not choose a party, your votes in the partisan section of the ballot (e.g., Governor, senators, representatives, etc.) will not be counted. However, you can still vote in the nonpartisan

races (Judges, Superintendent of Public Instruction) and ballot measures (levies and bonds) listed at the end of the ballot — and that means your vote will be counted.

8. If I choose a party, but vote for a candidate in another party, will my ballot be tossed out and not counted?

No. If a vote in a particular partisan race differs from the party preference you selected, your vote in that particular partisan race will not be counted. All of the partisan votes you cast that match your party preference will be counted (one vote per office).

9. Is voting Libertarian like voting Independent? If I choose Libertarian, can I cross back and forth between the major parties?

No, the Libertarian party is one of three parties designated as major parties in state law. They achieved major party status by having a candidate for statewide office receive more than 5% of the total vote in the 2000 election. Just as with the Democratic and Republican parties, voters who select the Libertarian party as a preference may only cast votes for Libertarian candidates on the partisan section of the primary ballot.

10. What about the Green Party or other parties, do they appear on the primary ballot?

No. Minor party candidates are nominated by convention and nominating petitions. Once qualified, minor party candidates are placed directly on the General Election ballot and do not appear on primary ballots.

11. What happens if I make a mistake when marking my ballot?

The best way to avoid mistakes is to read through the instructions, look through your ballot, and then choose a party — and then vote for candidates in that party only. If you are filling out your ballot at home, there is an easy process to follow to correct mistakes. Instructions for doing so are printed at the top of the ballot. You may also contact King County Elections to request a new ballot. If you are voting in a polling booth and make a mistake, ask the poll workers for a new ballot. They will destroy the spoiled one.

12. Who do I contact with concerns about the new system?

The blanket primary was found by the courts to be unconstitutional. This opinion has been appealed and was ultimately upheld by the U.S. Supreme Court. The Washington State Legislature adopted the new primary that will be in place this September.

If you wish to discuss changes to the new primary, you should contact your state legislators through the legislative information center at 1-800-562-6000.

King County Voter Information

Voter Qualifications

To register to vote in King County, you must be:

- a citizen of the United States
- a legal resident of Washington state
- at least 18 years old by election day

Registration Deadlines for New Applications

You may register to vote at any time, but keep in mind that there are registration deadlines prior to each election. In order to vote in an election, you must be registered by mail or through the Motor Voter program at least **30 days** before an election. For the September 14, 2004 Primary, the deadline is August 14, 2004. If you miss the 30-day deadline, you can still register in time for an election if you register **in person**, at the King County Elections Office no later than **15 days** before the election. For the Primary, the deadline for in-person registration is August 30, 2004. However, you must vote by absentee ballot, for this Primary.

PLEASE NOTE: For the November 2, 2004 General Election, the deadline for registering by mail or through the Motor Voter program is October 2, 2004. The deadline for **in-person** registration, at the King County Elections Office, for the General Election, is October 18, 2004. You must vote by absentee ballot, for this General Election, if you register at that time.

How to Register

Complete a voter registration form and mail it in according to the instructions described on the form. Forms are available from King County Records, Elections and Licensing Services Division, public libraries, public schools, fire stations, city/town halls and from the King County Elections' Internet website at www.metrokc.gov/elections/register.htm, click on voter registration form, and select the language version you want.

Keep Your Voter Registration Up-to-date

If your voter registration record does not contain your **current** name or address, it may affect your voting status. ***Note the deadline for changes.*** Changes to your name and address must be made **30 days before** an election to legally entitle you to vote using your new name or to vote in the precinct associated with your new address. Use the mail-in voter registration form to send your name or address change to the Elections Office.

Absentee/Mail-in Ballots

Any registered voter may vote by absentee/mail-in ballot. You do not have to be ill or "absent" to have a ballot mailed to you.

The request for an absentee/mail-in ballot must be made to the Elections Office (not to the Secretary of State). You may request an absentee ballot as early as 90 days before an election. (No absentee ballots are issued on election day except to hospitalized voters or as replacements for lost absentee ballots previously issued.)

One-time absentee ballot requests may be made either by phone, fax, e-mail or by regular mail. You may also sign up to receive an absentee ballot for all future elections. Just check the "Yes" box in the Ongoing Absentee Voter Request section of the Mail-in Registration Form or complete and send in a signed Absentee/Mail-in Ballot Request Form, a copy of which is provided in this voter pamphlet.

If you do not receive your absentee ballot or you have lost it, please notify the Elections Office at the telephone numbers, mailing address or e-mail address listed below. Voted absentee and mail-in ballots must be signed and postmarked or delivered to the Elections Office **on or before** election day.

If you have already requested or have a permanent request for an absentee/mail-in ballot on file, please do not submit another application.

Election Date and Poll Hours

This Primary takes place on September 14, 2004. The polling places are available for voting from 7:00 in the morning and continue until 8:00 in the evening on election day.

United States Senator

Democrat

Warren has run for political office many times before as a Republican and tried to run as an independent candidate, however the two major parties here in the Washington legislature made it too difficult by law, therefore he is running for the first time as a Democrat. Warren is issue driven- running not for self power- only because many major issues are not addressed properly by our Senators and Representatives. He is seeking a large vote to show the importance of those issues and he plans to stick with the project at least into the next federal election hopefully helping through organization of other concerned Americans to run a full slate of candidates devoted to the neglected issues.

Some of the neglected issues are: (1) secure borders to prevent illegal entry by terrorists and those breaking immigration laws; (2) 14th Amendment which grants citizenship with birth in the USA; (3) defining English as our national language; (4) the issue of our neighbor Canada not properly treating sewage dumped into our common waters- the Strait of Juan de Fuca and Georgia Strait- Victoria only screens their sewage discharge; (5) congressional term limit of 12 years; (6) no politicians as lobbyists.

Warren grew up in Bellingham, received a Navy scholarship to and graduated from Oregon State University in Chemical Engineering. Before college he was a National Guardsman and after graduation, served eighteen years as a commissioned naval officer active and reserve and received training in nuclear- biological- chemical defense and deep sea diving. He commercially fished for salmon in Washington and Alaska for forty plus years and currently is working as a casual longshoreman at the Tacoma and Seattle Ports. His military experiences, hard work, plus willingness to accept difficult tasks qualifies him to meet the challenges of this office.

Washington state is a great place to live and raise a family, and we must preserve and build on the things that make us strong. As your U.S. Senator, I believe we must put the priorities of Washington state first and take care of our own.

Taking care of our own means creating jobs. I am working to hold our trading partners accountable and pass tax incentives to help Washington employers keep jobs here and not send them overseas.

Taking care of our own means making wise investments here at home. I secured funding for critical transportation projects, and I have always worked to make our schools the best they can be. We need to do more to lower the cost of health care, preserve our environment, and promote new discoveries and innovations that help our people and our economy.

Our security starts here at home. Investing in port security, our Northern Border, our police and firefighters, and the safe clean up of the Hanford Nuclear Reservation have always been an important part of my work. Today, our ports are our first line of defense. I'm proud to have worked with the Ports of Seattle and Tacoma to make them the

first in the nation to implement tough, new security measures. We must do more.

Taking care of our own also means taking care of our troops. They deserve a plan for the war against terrorism that brings them home safely. As the first woman on the Senate Veterans Committee, I'm fighting to make sure our troops and their families get the support and respect they deserve as they sacrifice for us.

I am honored to be your voice as Washington's U.S. Senator. I ask for your vote and support to continue that work and put Washington state first.

As the last of the apricots fall off the trees around my clinic, I reflect on the fact that so many would rather use food stamps than gather the fruit so freely available. I am filing for the U.S. Senate with a deep commitment that my campaign will not be fleeting as the apricot, but rather stand as the evergreen pine, the symbol of our state. I will run against Senator Murray for whom I withdrew my name from the Senate race at the Rainbow Coalition, in Seattle, in 1992 so she could get an endorsement.

I want to convey a message to the American people, which the news media has failed to report. Senator Hollings, of South Carolina, and retired Marine General Anthony Zinni have stated that the Iraqi war was to protect Israel. I have proof on my website.

Recently, at my precinct's caucus February 7, 2004, we adopted a one state resolution in Palestine-Israel where Jews, Muslims, and Christians can live in a secular, united country like ours. I've promoted this idea for the last 25 years; my last participation was on renowned international satellite television Aljazeera, July 11, 2004, watched worldwide. Additional resolutions include the withdrawal from Iraq, repayment of the cost of the war in the form

of a loan, and compensation for Iraqi civilians, who are or were the victims of war and embargo. I seek an amendment to the Constitution under Article 1 Section 8 regarding trade with foreign countries, the War Powers Act to be approved by 2/3 of the state legislators instead of Congress, revision of the Patriot Act, and a call for Universal Basic Healthcare. My U.S. Senate campaign will not be just a Washington State issue but also an attempt to lead this country in a better direction.

Jim McDermott is a respected lawmaker seeking re-election to the U.S. House of Representatives. He is a strong and effective advocate for public policies that value all Americans. His record in Congress underscores his strong support of the core Democratic principles that promote the common good and extend the promise of equal opportunity to all.

In Washington State and Congress, Jim McDermott has championed access of all Americans to high quality, affordable health care, housing, and education; protection of our most vulnerable citizens; and maintenance of a healthy environment. His congressional service is highlighted by his efforts to achieve universal health care coverage; sensible, well-considered foreign policies that protect America's interests abroad while strengthening its participation in the international community; a fair, progressive system of wages and taxation; environmental

preservation and protection; an effective transportation infrastructure; ongoing campaign finance reform; reproductive choice; unencumbered civil rights; and trade policies that enhance Washington State's economy while respecting worker rights and the global environment.

Trained as a physician, Jim McDermott is a nationally recognized leader and forceful advocate for a universal health care system that is fair, affordable, simple and efficient. He is a strong proponent of strengthening Medicare for current and future beneficiaries, including the addition of straightforward, comprehensive prescription drug coverage. Jim McDermott consistently has worked to advance an enlightened national response to the HIV/AIDS epidemic, and he is fighting hard for comprehensive strategy to combat and overcome AIDS domestically and internationally.

Jim McDermott is a thoughtful, effective leader who represents Washington's Seventh Congressional District with skill and integrity. "Our government must return its attention and its resources to the common good. I ask you to join me in working toward a society distinguished by fairness and justice for everyone. Thank you for your support."

I grew up in the Ninth District. My father was a ramp serviceman at SeaTac, my mother a homemaker. They taught me the values that have guided me as a prosecutor, state senator, and congressman – integrity, hard work, personal responsibility, and independence. My wife, Sara, and our two children – four-year old Kendall and one-year old Jack – live in Tacoma.

It's my job to listen to you and to make common sense decisions. You've told me that Congress needs a less partisan, independent voice, and someone who will fight for good paying jobs, affordable health care, quality public education, a clean and healthy environment, and strong national security.

I'm working to eliminate incentives for companies shipping jobs overseas and to give workers the support they need to get good jobs. I also support efforts to help both workers and employers gain access to quality, affordable health care. Our current health care system is too expensive and inaccessible to too many people.

We need to have a public education system that is accountable and sets high standards, but also one that finally receives the support it needs to succeed. We also need to invest in alternative and renewable sources of energy to reduce our dependence on foreign oil, create jobs here at home, and maintain the high quality of life we demand here in the Pacific Northwest.

We face new threats at home and abroad from terrorism, and I will continue to use my positions on the House International Relations and Armed Services Committees to form a foreign policy that engages our allies while ensuring our troops have the resources they need to keep America safe. I'm also proud to support so many military personnel, veterans, and their families. I will continue to be a strong advocate for them.

Remember, if I can't move it, I won't approve it! I am Mike the Mover, and I approve the following message.

First: Amnesty. As a person who opposes military occupation of Iraq/Afghanistan, I am prepared to offer pardons and asylum to all Washington State citizens serving under United States military combat conditions contrary to their enlistment or conscientious beliefs. As your Governor, I will lobby on your behalf for re-assignment, or honorary discharge. In the event you belong to the Washington State National Guard, I hope to see you complete your service here at home, as a member of Homeland Security.

Second: Legislative Sessions. I propose alternating Legislative sessions, beginning in 2005 to be held at alternating fixed locations in Eastern Washington, namely Ellensburg (2005), Cheney (2007), and Pullman (2009). Our State colleges shall provide the venue. These sessions will allow for more Eastern Washington input, and allow our young college students a first hand experience to see how the state legislature is conducting itself.

Third: Health Insurance: A bill to the legislature providing and requiring 50% co-payments for insurance from all state employees. This will allow the budget committees hundreds of millions of dollars to shore up anticipated monetary short falls across the board. As a tax-payer, you should object to any state employee receiving universal coverage at your expense. This is by far the best way to put increased pressure on the medical lobby, and lower premiums.

Fourth: The Inspector General: I will appoint an individual the title of Inspector General. Operating in league with the State Auditor, directly through the Governor's office, this individual will personally assess the virtual credibility of all state and federal contractors operating within state property. His job? Save the tax-payer, millions of dollars!

Sometimes you have to challenge the status quo, ask tough questions, and think about things in a fresh way. Growing up in Spokane, my parents instilled in me the values of hard work, an open mind, and, as a preacher's kid, the importance of serving others.

I'll bring these values and a new approach to issues facing our state if you elect me the next Governor of Washington. I'm Ron Sims.

Blessed by a terrific mother and father who made education a priority, they sent me to college to open a world of opportunities for me.

I was a young staffer in Olympia for George Fleming, the first African-American ever elected to our State Senate. I learned how Olympia worked, and Senator Fleming taught me how to help people on both sides of the Cascades.

I served on the King County Council, and chaired the budget committee where I learned how to balance the books and provide vital services. By night, I volunteered in a street ministry to help those who couldn't help themselves find shelter and food. With my wife Cayan, we've raised three sons.

As King County Executive, I've streamlined county government, balanced budgets seven straight years, helped create new educational and recreational opportunities for our families, and led one of the state's most aggressive road building programs while driving major breakthroughs on mass transit.

I've made tough decisions, challenged the status quo, and never settled for "good enough." We are a great state with great people. I'll be a Governor you can be proud of, a Governor with fresh ideas on even the toughest problems like making our tax system fairer. And I will always – always – be a champion for the working men and women and their families.

I would appreciate your vote. Thank you.

My fellow citizens, the Washington State is in an economic tailspin. Hundreds of thousands of jobs have been lost and the State budget is being balanced at the expense of the elderly, weak and disadvantaged. And yes, in these hard economic times some State agencies are outsourcing government jobs to India, instead of creating them here, at home. This is not only an insult to us, the citizens who pay the bill, but also a potential threat to our national security.

The economic prosperity of a few years ago is gone – wrecked by the national recession, worsened by special interest politicians who don't know a thing about creating jobs or balancing budgets.

I am not one of those "career, out of touch" politicians from Olympia. I am and have been a Software Engineer for most of my adult life. I am also a single parent. I am a regular guy that faces the real life issues every day, the same way most of us do.

Restoring the American Dream for Washingtonians means creating jobs!

As Governor, I will: • Downsize government. Eliminate agencies that duplicate federal or local functions. • *Replace* the Sales Tax with a State Income Tax. Eliminate the Gas Tax. • Give tax incentives to companies that create and keep jobs in Washington. • Require all State agencies to "buy and employ American." • Spur investment in world class technology and computer based curriculum in our public schools. Require school uniforms for the K-12 students. • Make health care universally affordable by creating a State Insurance Corporation. • Introduce a tax on imported goods and outsourced jobs to pay for the security on our ports and borders.

Always remember, the power to change Washington rests not in my hands, but in yours!

I would like to take this opportunity to introduce myself, my name is Scott Headland and I am a gubernatorial candidate for the great State of Washington.

I have been an employee of The Boeing Company since September 1985 and the sole proprietor of All American Electrical Contractor. I am a single parent, my son Charles is seventeen years old.

I have been a member of IAM Local 751 for the past nineteen years and a member of IBEW Local 46 and 76 in the past. My father was a member of Operator Union Local 302 until his retirement.

Some major issues need to be addressed in the up and coming years, such as, unemployment, transportation, the Alaskan Way Viaduct, and the Monorail just to name a few. How is the state going to pay for these and other high dollar issues? My constituents claim this can be done by restructuring the current tax base by raising your taxes. My theory is to institute state owned and operated casinos that are strategically located with the proceeds going directly into the state's general fund. This will not only lower the unemployment rate and the state deficit but will increase the funding for schools, police and fire departments by means of the state lottery program in which it was intended.

New criminal guidelines must be instituted. Minor law breakers should be given the option to be incarcerated or enlist into the armed forces. This has been done in the past with a good success rate. It will give these people a sense of self worth and instill structure and discipline into their lives, as well as, career opportunities and a chance to become productive members of our society.

In closing, a vote for Scott Headland is a vote for the people.

Chris Gregoire: The Right Direction for Washington

I'm running for governor with a comprehensive, detailed plan to move Washington in the right direction. That means creating good jobs, improving education, and providing affordable, quality health care for Washington's families.

My innovative plan will: • Create 250,000 new jobs over the next four years; • Reform the business tax system; • Cut red tape and make it easier for people to start their own small business.

As Governor, I will protect our families' health by joining with other states to negotiate discounts on prescription drugs and by expanding children's coverage.

To improve education, I've offered a detailed, comprehensive plan to expand early childhood education, end the dropout crisis and improve science and math education to be sure every child graduates ready for work, life and citizenship.

I will restore public trust by improving government accountability. And I will protect a woman's right to choose.

Chris Gregoire: The Right Values

I learned Washington values growing up in a working class family in Auburn. My mom was a short-order cook, and I worked my way through college with a job in a print shop. My husband Mike and I have raised two daughters.

A Record of Leadership

As Attorney General I stood up to special interests on behalf of ordinary working people.

I took on the big tobacco companies and won a \$4.5 billion settlement that benefits all Washingtonians. The settlement improves health care and helps fund the state budget without raising taxes. I also took action against companies that manipulated drug prices at the expense of seniors.

Throughout my time as Attorney General, I have tried to represent Washington's views and values.

As your next governor, I will continue that tradition, and lead Washington in the right direction. Thank you for your vote.

With new technologies come new challenges. That's why my top priority is a "Voter's Bill of Rights" that guarantees every vote is counted – *and counted correctly*. I'll require that every electronic voting machine produce a voter-verifiable paper trail, and that voting machine companies remain neutral in elections.

And I'll protect more than just our votes. I will protect well-intentioned citizens from swindlers by cracking down on fraudulent charities. I will protect victims of domestic violence by strengthening enforcement of address confidentiality so that their assailants can't find them. I will protect libraries by getting them the resources they need, instead of spending taxpayer money on wasteful consultants.

I will protect our future by increasing voting participation. Because when people vote, they vote for better schools, affordable health care, and government that delivers more for less of our money.

My record in the Legislature shows I can get the job done. For six years, I've worked across party lines to protect our privacy, improve schools, and expand access to health care. When we set aside our partisan differences, we can meet any challenge. Please join me in protecting our votes and securing our future. Thank you for your vote.

I've been honored to serve as your Washington State Treasurer for two terms. I'm asking now for another vote of confidence.

My campaigns in 1996 and 2000 were based on three principles: integrity, customer service and working smarter. I'm proud of the way we lived up to these standards in two terms as State Treasurer and 10 years before that as Thurston County Treasurer.

Integrity: It means competitive bidding for every contract or bond sale I conduct. No deals, no gimmicks, no discussion.

Customer service: It means creating programs that make life easier for local governments and school districts. Your local finance professionals are our partners in serving the taxpayers of Washington. Nearly all the state's county treasurers have endorsed our re-election – Democrats, Republicans and nonpartisans alike.

Working smarter: It means using technology to remain at the forefront of the financial industry. For example, all our bond sales are conducted electronically, which provides the fairest, most accurate process possible.

I have earned the endorsement of labor organizations, bankers, schoolteachers and a wide cross-section of Washington citizens. My wife, Teri, and I, both lifelong Washingtonians, are now asking for the best endorsement of all: your vote for Murphy. Thank you.

Brian Sonntag has changed the auditor's office from an obscure bureaucracy to what Washington's founders intended – a champion for Washington's taxpayers.

Brian's support from all across Washington is reflected by what these newspapers had to say in the last election...The Herald, Everett "He (*Sonntag*) is widely respected by elected leaders of both parties for conducting checks into governments that are objective and free of partisanship." Seattle P-I said "*Sonntag* has discharged his duties in a professional, innovative manner." And recently, Tri-City Herald called *Sonntag* "one of Washington's strongest proponents of open government."

Sonntag is a Certified Government Financial Manager, member of the Washington Coalition for Open Government, served on Governor Gardner's Intergovernmental Advisory Committee, boards of United Way, Boys and Girls Club and youth baseball and basketball coach.

Brian has been recognized with the Seattle Municipal League's Warren G. Magnuson Award and Washington Newspaper Publishers Freedom Light Award.

Sonntag has been endorsed by the State Labor Council, Association of Realtors, Washington Council of Firefighters, teachers, public employees, business leaders and many others – but the most important endorsement is *your vote!*

Hire *Brian Sonntag* your State Auditor. *Sonntag* brings accountability and common sense to state government.

Mike Cooper has been a firefighter for 24 years and serves in the State Legislature as Chairman of the House Fisheries, Ecology, and Parks Committee.

As Commissioner of Public Lands, Mike Cooper will ensure that our forests are managed sustainably for the long-term. He will look for new and innovative ways to manage our public lands so that we protect our unique way of life for future generations. It is time to move in a new direction – one that respects the public interest.

We need to find new ways to fund school construction, so we no longer have to pit our forests against our schools.

Mike Cooper's plan will:

- Create wind farms on state lands to generate clean, renewable power, provide jobs in rural communities, and raise revenue for school construction;
- Implement a "forest certification" program that requires timber companies to conduct logging on public lands in a way that will not harm wildlife and water;
- Ban cutting the last remaining old-growth trees and ensure that logging does not harm our drinking water.

Mike Cooper is endorsed by groups like the Washington Federation of Teachers, Sierra Club, Washington Conservation Voters, Washington State Labor Council, and many firefighter unions.

As the state's top advocate for insurance consumers, Mike Kreidler takes his responsibilities as Insurance Commissioner very seriously.

In his first term, Mike Kreidler saved consumers more than \$130 million in auto and homeowners' insurance by cutting excessive premium rates proposed by insurance companies.

His free consumer advocacy program recovered more than \$43 million for policyholders by directly intervening in their insurance complaints.

He also protected consumers from the unfair use of credit information for insurance purposes.

Mike Kreidler is eager to continue championing and defending insurance consumers.

The people of our state deserve affordable health insurance and Mike Kreidler will keep up the fight for meaningful reforms. Mike Kreidler has specific proposals to expand coverage, reduce costs, and insure more people while preserving the right to make choices. He also will fight the big drug companies in an effort to lower the cost of prescription medications.

Mike Kreidler is a proven leader who has served the people of Washington with dedication, fairness and hard work. That's why he's earned endorsements from labor, business, retiree, educational, consumer and health care individuals and organizations across our state.

I, Brad Klippert, am a husband and father. I am a full time law enforcement officer, a veteran and active Major/pilot in the U.S. Army National Guard. I have a Masters Degree in Teaching and I am a licensed minister.

I am a God fearing, Bible believing, Ten Commandment honoring, evangelical Christian candidate. I firmly stand for and fully support traditional family values; the committed marriage between a man and a woman/husband and wife.

I believe that every life is precious and valuable with great potential; including the life of unborn children.

I believe in and support the rights of all Americans. I also firmly stand for the notion that "freedom is not free" and demands every American exercise personal responsibility.

I believe the United States of America is the greatest nation on earth and has one of the greatest forms of government ever known. However, I believe it is American people who truly make America great and applaud hard working Americans everywhere.

As an Independent Business Owner, I celebrate and fully support our free enterprise system and ambitious business owners/operators across this great land.

In summation, I believe that there is a standard by which all will ultimately be judged. All is not relative. There are issues we are dealing with that are right or wrong and not simply subject to popular opinion or current trends. God's word says, "There is a way that seems right unto men, but the end thereof leads to destruction." I believe Americans today want more from their government than just standard practice politicians. I believe Americans today want leaders they can trust to do the right thing, even in the face of adversity. I am a candidate for United States Senator accepting the call to be such a man.

Since 1995 I have represented eastern Washington in Congress. I'm proud of my ten-year record of public service and leadership in the House of Representatives and now I want to earn your vote for U.S. Senate.

I'm running because our state needs strong leadership in the U.S. Senate. Senator Patty Murray has consistently voted to weaken our military, stop tax relief and job creation, and block legislation to stop junk lawsuits.

My priorities are simple. As Senator, I will create new jobs by making tax relief permanent. I'll make health care more accessible and affordable by passing medical liability reform and expanding health savings accounts. And I'll make sure our troops have all the resources and support they need to win the war on terror – so we fight terrorists

in the Sunni Triangle, not King County. I'll continue to fight for Washington's seniors by making prescription drugs more affordable. I am committed to preserving Medicare and modernizing the successful program to meet the needs of our seniors.

I have fostered partnerships between leading Washington manufacturers and the Department of Defense to create new jobs. I have supported investments in key technologies that will give our region a competitive edge to promote further job growth. I will oppose future tax increases and will work to make tax relief permanent so businesses and families can plan for the future. I believe we must permanently eliminate the marriage penalty and the death tax. I support a permanent extension of the \$1,000 child tax credit.

We are running a vigorous, issue-driven campaign to share our message in every corner of our great state. We have the support of thousands of Washingtonians who are eager for leadership in the U.S. Senate.

Thank you for your careful consideration. I will be honored to have your vote.

Gordon belongs to the Party of Lincoln. "The Great Emancipator" freed the African Slave, and Gordon is here to free the American Slave. "We the People" did not mean one woman nor one man unless he was white and happened to own land.

On the other hand, the future of an America Gordon envisions is outlined in "The Declaration of Independence: We are created equal but if politicians are not doing their jobs, throw them out!"

United we must stand to take back what is rightfully ours by the same means that our traitorous legislators unlawfully stole a pound of flesh from each and every last one of us. This wondrous vehicle, is simply the legislature that is supposed to enact the law. Together we will create Americas laws, which will be quicker than our adversaries' hand; Get ready... 1,121,001 registered voters who refrained from voting in the 1998 U.S. Senate race!

Our lame leadership in all respects has proven beyond a reasonable doubt that they are incapable of managing Washingtonians' affairs. Therefore, Gordon is offering to resurrect Washington state, lifting us back into the green from out of a red abyss. Gordon is a conservative conservationist. God states, Take of the earth, don't leave a trail.

Cast the 28th Amendment to the United States Constitution to be born at last. Axe taxes; *Axe Tax* crucify tyranny; resurrect liberty. Abolish all federal, state, local taxation, fees, write-offs, loopholes, and shelters. Earn a \$00.10, tithe \$00.01. Federal, state, and local governments shall equally receive 33.33%. The remaining 00.01% shall finance America's political campaigns.

Clearly Gordon's proposed treaty is the spark for rekindling a true vision of our national pride in "American competition." When 100% pledge 10% justice becomes America's "domestic policy."

Conclusion: Washingtonians wielding jobs, vacations, health care, and education.

Sugar coating the issues will not make them go away: the United States of America is barreling down the track toward a financial train wreck. Our national debt (how deep the hole is) exceeds \$7.25 trillion; the deficit increased (the hole was made larger) by \$554.9 billion in 2003. Interest on the debt was \$318 billion last year (it will be higher this year).

Look at the national debt as if it were a variable interest home loan and we the people as the homeowner.

When the Federal Reserve Bank raises the interest rates, (which it has) our financial problems (we are the homeowners with the variable interest loan) will worsen.

Thomas Jefferson wrote, "I place economy among the first and most important virtues, and public debt as the greatest of dangers to be feared. To preserve our independence, we must not let our rulers load us with perpetual debt. If we run into such debt, we must be taxed in our meat and drink, in our necessities and in our comforts, in our labor and in our amusements. If we can prevent the government from wasting the labor of the people, under the pretense of caring for them, they will be happy."

Unfortunately we have been loaded with perpetual debt. In the past 3 years, while the interest rates were going down, the American taxpayer has been forced to pay over 1 trillion dollars in interest on the national debt. If Congress could have controlled itself, instead of pandering to special interest legislation and pork barrel spending, the money that we are now wasting on interest payments could be the billions that are needed for repair projects.

A start on solutions is listed at web-sites.

I am a conservative Republican who believes that national security is our highest priority. We must do everything possible to protect our ports, transportation hubs and cities from terrorist attacks.

Second, we must rein in congressional spending. Spending by this Congress has created a budget deficit so large that Alan Greenspan, chairman of the Federal Reserve Board, has called on Congress to cut Social Security benefits in order to start paying down the deficit. There is an alternative to cutting benefits: it is time to allow a younger generation the *voluntary* option of putting a portion of its Social Security taxes into personally managed accounts. But we cannot reform Social Security— or other entitlement programs like Medicare—if Congress cannot quit spending.

Third, we must stop illegal immigration. Illegal immigration costs working Americans jobs and strains the resources of hospitals, schools and municipalities.

Fourth, I am a pro-life conservative who believes that protecting the family is one of the most important challenges today. I am the only candidate in this race who favors a constitutional marriage amendment. Anything short of a constitutional amendment will not have force enough to protect the will of the majority on this issue.

Fifth, we need tort reform. Tort reform will keep the cost of malpractice insurance down so doctors can afford to practice in Washington State. Moreover, we need to create tax incentives to encourage Americans to use Health Savings Accounts, our best hope for preserving choice and containing costs in healthcare. *Single payer health care insurance is simply rationed care.*

Finally, we must de-rail Sound Transit. As your United States Senator, I would block the federal government's portion of the project. Sound Transit will destroy our neighborhoods, businesses, and budgets. We need a better solution.

I was a teacher for 23 years. I urged children to "Do the right thing!", to become upstanding, productive citizens. Now I aspire to represent you in Congress. If you agree with where I take a stand I ask for your vote.

- We're at war! On 9/11 radical Islamists attacked us. We must be prepared to defend ourselves here and abroad. Protect our borders. I support President Bush and the Patriot Act.

- The Judicial Branch doesn't have the authority to make law.

- Protect American owned businesses and corporations. Support our economy. Don't out source American jobs.

- I support the President's tax relief and will vote to expand it. Investigate replacing the IRS with a National Sales Tax.

- We must vote on President Bush's judicial nominees.

- We've had thirty years of failed public education. I'd promote textbooks and curricula which guided American children through 1960. I support charter schools and a voucher system. Competition promotes excellence.

- Abortion is the American Holocaust. Since 1972, 43,000,000 babies in the womb have suffered death by abortion. I am pro-life and will work to protect the lives of children.

- Money for highways. Sound Transit isn't sound. Monorails are fun but they don't move traffic.

- Promote ownership of Social Security and preserve health care choices.

- The First Amendment guarantees our right to religious expression in public places.

- The right of the people to keep and bear arms shall not be infringed.

- Marriage is the God-ordained building block of the family, the bedrock of civil society. I support a federal marriage amendment affirming that marriage is one man, one woman.

- The phrase "under God" must remain in our Pledge of Allegiance.

- Jews have the right to live in their ancestral homeland. Israel has the right to defend itself and is our ally in the war on terror.

Shall the People Rule?

Or will the media have undue influence over our elective processes, thereby undermining our republic?

Shall the People Rule?

Or will we go against the advice of George Washington, the first president and our state's namesake, who effectively warned us against the lure of empire?

Shall the People Rule?

Or will our nation stray away from unalterably opposing terroristic foes?

Shall the People Rule?

Or will the selling of the government to the highest corporate bidder – lock, stock and barrel – be the rule of the land?

Shall the People Rule?

Or will the Bill of Rights be canceled under the guise of irrepressible security when what is called for is mutual security of the homeland & the Constitution?

Shall the People Rule?

To make sure that the machinations of government does not impair our effervescent ingenuity in solving intractable problems like housing, education and health – and the new problem of energy & global warming.

Shall the People Rule?

For crystal clarity of the sanctity of life and our essential values. For stewardship of our part of the earth as we look towards God for stewardship of the universe.

As King Whitney Jr. stated, "Change has a considerable psychological impact on the human mind. To the fearful it is threatening because it means that things may get worse. To the hopeful it is encouraging because things may get better. To the confident it is inspiring because the challenge exists to make things better." My goal, as your congressman, is to give you hope, and confidence, in your political process again. I will represent you and your needs, not the money and influence that weakens most politicians. My job will be to represent you, and answer to you, the voters. Contact me at any time at Pauljlord@yahoo.com, and I will try to answer the questions you have, and tell you where I stand on any issue. The second, and most important part of my job, will be to bring you the truth.

This can't be explained in a commercial or campaign. I will inform, involve, and inspire you to help me fix the important issues we face today.

With your vote for me, you will be voting for Change. You may be fearful that I won't represent your needs, and things will get worse. If so, ask me. Question what the people seeking power over you say to you, and I will find you the truth, so we can make a difference.

You may become hopeful, because someone will represent you in a way a politician never has. I believe 90% of us want the same things from life, our future, and our children's future. I will be responsive to you.

Like me, you may become confident and inspired. The challenge does exist to make things better for all of us. Give me an opportunity to represent you and remake our government for the people, and by the people.

If I am elected your Governor, I will do the following: (1) Standardize textbooks to cut public education cost and provide equality for students being evaluated by the WASL test. Some subjects never change with current events and can be standardized for public education. When a student relocates, the course material will be the same providing continuity. (2) Implement an affordable housing program that renters can build equity through real estate ownership and be able to upgrade later as their standard of living or family size increases. This in return will provide a long-term construction cycle and create over 30,000 union wage jobs and another 100,000 supporting jobs. By helping renters to become property owners, they in return will support local governments and communities with much needed revenue. Since the investment to start the program will be paid back through mortgage payments, there would never be any loss and real estate will always have a value. (3) Initiate a health care package for our citizens and take health care off the negotiating table for employers and employees. Let them bargain cost of living and other benefits instead. This will mean an increase of sales tax to fund the cost of this package, which will have to be voted on, if our citizens want this to happen. (4) As our baby boomers age, we need to provide for our seniors with shelter, nurses, and health care providers. A shortage exists in our state to provide for this future increase and I would like to offer something similar to the GI Bill to attract people to enter into the health care field with the understanding that an employment commitment is required upon receiving this education. This is just a short list of what I will do as your Governor.

Dino Rossi is running for governor to bring new leadership to Washington state. For 20 years, the same party has controlled the governor's office, and now it's time for a change.

Washington's unemployment rate is one of the highest in the nation. Patients are losing access to affordable health care. Our education system needs reforms. Traffic is still a problem. And communities across Washington are fighting efforts by state lawyers to place sex offenders in neighborhoods.

Our state is on the wrong track, but with the right leader we can bring it back. That leader is Dino Rossi.

Last year, when the state faced the largest financial crisis in history, State Senator Dino Rossi brought Republicans and Democrats together and passed a bipartisan budget that preserved funding for education and health care for our most vulnerable citizens without raising taxes. He proved that you can be a fiscal conservative and still have a social conscience.

Dino is a third-generation Washingtonian. His grandfather was an immigrant who worked in the Black Diamond coal mines. His father was a teacher in Seattle Public Schools and his mother was a beautician. Dino, who graduated from Seattle University, has been a successful businessman in the community for 21 years. Dino and his wife, Terry, live on the Sammamish Plateau and have four children: Juliauna, 13; Jake, 10; Joseph, 8; and Jillian, 3.

As governor, Dino will reform state government. He will work to bring more jobs to our state, reform health care, and improve education and transportation. Dino has been endorsed by both business and labor.

Washington state needs a fresh start. Dino Rossi will bring new leadership to state government and make Washington a better place to live, work and do business.

My name is Jim Nobles and I am a candidate for the office of Lieutenant Governor of Washington State.

If I am elected:

I will use the office of Lieutenant Governor as a liaison between the people of Washington State and the Executive Branch. When the Senate is not in session, I will travel to every corner of this State, meeting with citizens and bringing their concerns and suggestions back to Olympia. I will become an Ombudsman, a mediator, for the people.

I will bring civility back to Olympia. As a mediator I will work with all parties to find common ground for the benefit of the people and attempt to end partisan gridlock. I will sit down with the Senate leadership and work to streamline some of the State's regulations that are so onerous to her citizens and businesses.

I genuinely like to help people to take control of their own lives. My experience working with disadvantaged individuals has taught me that if people are encouraged, regardless of the obstacles, they will succeed.

I am a true Washingtonian, both heart and mind. Born and raised in Washington, I earned my BA in International Affairs from Eastern Washington, and later my MA at the Monterey Institute of International Studies. My family has now resided in Washington for five generations. My interest and commitment to Washington stems from both my family history and my concern for the future of my children and grandchildren, a future that is threatened unless things start to change. *We need* education aimed towards motivating and teaching our children, not just preparing them for tests. *We need* Homeland Security that is efficient, effective, and doesn't create frustration and confusion. *We need* to attract and keep business, not scare it away to other states and countries. *We need* to spend tax money where it's needed, because it's just as important in our pockets as in the hands of the State. *We need* city and state planning that works for today, tomorrow, and the future. *We need* property taxation that does not force seniors out of their homes and keep others from using their land. *Washington needs* to focus its attention, once again, on its people.

Thank you for the privilege of serving as your Secretary of State. I've worked hard to defend your "free choice" primary and protect your voting rights. With the help of local election officials, my office is replacing hanging chads and punch cards with safe and secure voting equipment. Together, we've registered nearly 300,000 new voters.

Following the Florida debacle in 2000 and new federal mandates, experience is more critical than ever for the Secretary of State. My 20-plus years of knowledge and expertise will ensure that every vote is counted correctly. Your trust and confidence in the voting process will remain my top priority.

Since taking office, I've:

- Fought for the People, not special interests, when our state's blanket primary election was challenged in court;
- Passed Washington's first Voter Integrity Act to protect against fraud and discrimination;
- Created a new state mandate requiring a voter verified paper audit trail for all electronic voting machines.

Endorsed by nearly all of Washington's County Auditors, I'm proud to have strong, bipartisan support among elected officials throughout the state.

Sam Reed is the leader voters trust.

I believe the number one issue in the 2004 State Auditor election ought to be the attempts by current Washington State Attorney General Christine Gregoire to cover-up the events surrounding Crystal Brame's murder.

Fact: Brian Ebersole lived in Tacoma.

Fact: On November 2, 1982, Ebersole was elected to the Washington State legislature.

Fact: When Ebersole was in the legislature in the early '90's, he was sued by state employees who stated Ebersole had coerced them into illegally campaigning for him on taxpayer time.

Fact: Christine Gregoire "investigated" that scandal by paying the employees almost \$1 million in taxpayer money to settle the case's and then Gregoire tried to keep the court records sealed from the public.

Fact: On January 1, 2000, the Tacoma News Tribune names David Brame one of 20 "*South Sound future leaders.*" Bill Baarsma, then a former city councilman and the police union candidate for the 2001 mayoral race, calls Brame an "*outstanding candidate for chief in the future.*"

Fact: (Then) Former Tacoma Mayor Brian Ebersole also endorsed Brame for police chief.

Fact: On April 26, 2003, Tacoma police Chief David Brame murdered his wife, Crystal, and then killed himself.

Gregoire's involvement? Visit www.TheTruthRocks.com and then please call "60 Minutes" at (212) 975-2006.

Washington citizens are at risk because the Attorney General is not doing enough. I will protect your family's rights, safety and pocketbook.

Identity theft: The AG's office has only six lawyers covering consumer protection. I'll invest more resources to fight fraud.

Internet crime: As Washington's top law enforcement officer, I will relentlessly pursue cyber stalkers, pornographers and child predators, the vilest criminals.

Taxpayers should not foot the bill: Lost lawsuits are costing taxpayers hundreds of millions of dollars. I'll reduce lawsuits against state taxpayers by requiring state agencies to obey the law, and by seeking reforms that limit lawsuit abuse.

Endorsed by every major law enforcement organization, and 37 prosecutors and county sheriffs: As an attorney and lawmaker I have always made public safety my top priority; I'll continue to do so as your Attorney General.

Supported by our two former Attorneys General, 70 state legislators and dozens of local elected officials: Because I have practiced law, made law, helped manage 125 public employees, and written a \$3 billion county budget.

Endorsed by farmers, doctors, homebuilders, realtors, contractors and business owners statewide: Thousands of community and business leaders urge you to vote for Rob McKenna for Attorney General.

Fresh ideas and experience, that's why you should elect Mike Vaska. Vaska brings 18 years of experience at a prominent Northwest law firm leading litigation teams on cases with millions at risk. The cost of lost lawsuits against the state is a concern for every taxpayer. The average family is currently paying \$120 out of the state budget in what amounts to a "litigation tax" that is doubling every four years. Mike Vaska is the candidate who identified this growing problem. He is the only candidate

with the experience to help solve it. Mike Vaska has a solid record as a problem solver as a civic leader and attorney. Last year he worked to save two hospitals and 1,000 jobs in the Yakima Valley. In this election the choices are clear: elect Mike Vaska who has the most experience or select a professional politician who happens to be a lawyer. You can be proud to vote for Vaska and elect an Attorney General with the most experience and new ideas.

Raised in Eastern Washington, Doug served as a smokejumper, small business owner, Pierce County Executive and Tacoma's Mayor. His reputation for independent thinking and fairness earned him the endorsement of prominent Democrats like Governor Booth Gardner.

Education leaders support Doug's balanced approach to timber sales which generated hundreds of millions of non-tax revenue dollars for schools. Washington's largest union – the Machinists – supports him because he's created thousands of family-wage jobs.

Fire chiefs support his commitment to fighting wildfires that threaten communities and wildlife habitat. Environmental activist Darlene Madenwald applauds Doug as the first Lands Commissioner to propose an end to old growth clear-cuts. Former Governor Dan Evans supports Doug's work to keep public lands and trails open and clean.

Everett Port Commissioner Don Hopkins supports Doug's work to help ports create jobs and clean up contaminated sediments in Puget Sound. Family forest landowners value Doug's respect for their ability to care for and work their forests.

They all trust Doug Sutherland to overcome the bitter environmental politics of the past, and they want four more years of balanced environmental stewardship.

With over 21 years experience as an Insurance Agent, I, Earl C. Dennis, have improved over 1000 clients' immediate and future financial positions. I recognize the frustration caused by the blatant fact that Washington's insurance bureaucracy does not make available to Washingtonians many of the excellent insurance products easily available (only) to the residents of other states. The Insurance Commissioner must be someone, like myself, who understands the insurance industry from three directions—the insurance companies, the insurance agents, and their effects on the Consumer—in order to benefit his fellow Washingtonians.

Born, raised, and married in Washington State, Sue and I are happily married for 25 years and proud parents of three sons, Earl (24), Michael (21), and Tony (17). I am a current member of the Board of Directors for Cascade Swim Club and a certified Stroke and Turn Judge for Pacific Northwest Swimming. I raised funds for charities and schools through auctions, golf marathons, and other activities. After college in Seattle, I attended over 350 hours of continuing education and seminars specializing in insurance. In addition, I study the changes and updates of insurance so that I can effectively meet the insurance needs of my fellow Washingtonians.

Your Insurance Commissioner must be more than an administrator.

The Commissioner should be both an advocate for consumers, and a regulator/protector of the insurance industry.

Let's face it, one of the reasons for higher insurance costs and fewer options is because of unrestrained litigation and greed.

Extreme judgments contribute to the rising insurance costs that have driven doctors from their practices, insurance companies from our state. Average families and many businesses cannot afford medical coverage/benefits.

We have all heard the old saying, "If it isn't broke - don't fix it." It's time to wake up! *The system is broke – it does need fixing.*

Let's work for common sense and creative solutions.

John Adams began his career as an insurance professional with the Hartford Insurance Group. He later joined the Marsh/McLennan brokerage, and now owns his own small insurance firm. He is a lifelong resident of Washington, a graduate of the University of Washington, a VN-Veteran and Eight year School District director, LK-WN#414.

Let John Adams bring 34 years of professional experience in the insurance business to the Commissioner's office. Give him a chance to begin to fix a broken system.

Vote John Adams for Insurance Commissioner!!

Curtis Fackler has an eighteen year history as an independent insurance agent and business owner. Fackler believes you should have control over your health care dollars not some insurance company or bureaucrat. Curtis Fackler will increase medical insurance choices. He will introduce legislation to deny insurance companies from using credit scoring and require proof of insurance at license tab renewal. Fackler is a dedicated advocate of Tort Reform which will ensure our health care and biotech companies remain in the state. We must change from the idea of one-size fits all to choices for everyone. Curtis Fackler is the individual to make these changes.

The last twelve years, the Insurance Commissioner has had no background or experience in the insurance industry. Now our medical insurance premiums have increased to over \$1,000 a month for many families. The number of uninsured in both health and auto insurance is dramatically increasing. Every year we see doctors fleeing the state due to increasing malpractice rates. The Office of Insurance Commissioner required the largest medical insurer in the State to spend \$35 million of policy holder premiums to answer department regulatory requests. Curtis Fackler has the experience to make changes.

Whether you vote Republican or Democrat, next year a new home will still cost a little more and health care insurance will be more expensive – if you can get it at all. There will still be drive-by shootings and crowded jails due to our failed drug policies. Republicans *and* Democrats will send American kids overseas to fight and die.

So, “choosing” between the two old parties won’t change much in your life. Accordingly, the most important issue is this: Do you like the existing lesser-of-two-evils system, or would you be better off with more choices?

If, like me, you think the old two-party system is the problem, and if you want to help build a multi-party America, then you simply must stop voting for the two old party candidates. You probably don’t agree with *everything*

Libertarians are saying, but the Libertarian Party – organized in all fifty states, and organized nationally and locally, is closer than any other group to breaking the old parties’ grip on American politics.

You can wait for someone else to build an alternative to the two old parties, or you can vote now to start changing things for the better. Come visit me on the Internet at www.jmills.org, and help build a three-party America. This is the most important thing you can do this year to build a better future for your children.

And, if you agree it’s time to change the system, you might still think that voting Libertarian isn’t important since many Libertarian races are uncontested. That’s wrong because even an unchallenged candidate must receive 1% of the vote to advance into the General Election. We are counting on you to assure there are more than the two old party candidates on the General Election ballot. Please vote the Libertarian ballot.

Starting at the bottom of the economic ladder, make life better in Washington State. Abolish the criminal minimum wage which destroys low-value jobs and thereby destroys the lives of the less productive people and contributes to their poverty and their homelessness. Using free market pricing, create jobs, jobs, and more jobs for people-with-problems who can not find jobs at the job-destroying minimum wage. Make it easier for troubled people to take care of themselves. Remember that most people earn more, not because of the minimum wage, but because their employers think them productive and reliable.

At low pay, government (having only a limited amount of taxpayer's money) should be an eager employer of unemployed citizens. Make government employment more flexible.

Grow the movie-making industry in Washington State.

Promote the involvement of for-profit companies such as Boeing and also Washingtonians in the coming, amazing colonization of orbital space (the high frontier).

Increase the quality of life and reduce the stress level. To reduce traffic congestion and the related pollution, abolish building height restrictions which discourage the desired Vancouver Canada type high-rise condominiums from being built here. Make parking easier.

To do away with the spoiler effect of more than two candidates in an election, switch to 1st, 2nd, and 3rd choice, preferential voting (see www.irvwa.org).

Increase the peoples' access to their public property. Increase afternoon and evening utilization of public universities and community colleges. Make it easier for people to increase their knowledge. Before building new libraries, increase the open hours of the current libraries. Increase the openness of our government. Make the treatment of mental illness more visible to the public.

Most welfare recipients should work for their welfare money.

Liberty and Justice for All

We all make this pledge. At ball games, school assemblies or civic club meetings, we stand with hands over hearts and pledge "...Liberty and Justice for All."

Liberty is about choice. No choices, no *Liberty*. Consider healthcare. In a free country, who decides which medicine you take? Politicians? Or you and your doctor? Whether it's choosing experimental medicine that's not FDA approved, or importing lower cost prescriptions from Canada, shifting medical decisions from politicians back to individuals will increase your freedom of choice – your *Liberty*.

Or consider same sex marriage. Doesn't separation of church and state mean that politicians must leave holy matrimony to the clergy and limit the state's interest to civil union contracts...for everyone? Ensuring equal rights for individuals when it comes to inheritance, benefits, taxes and child custody will extend *Justice* to all.

Or education. We spend more and more money every year, but our failing reading and math scores don't improve. We need to give parents, students and teachers more choices.

On every issue I ask, "Who decides?" When your choices are peaceful, then *you* should decide what is best for you and your family. That's the way I'll lead on every issue, every time. If you want the freedom to make your own decisions, then vote for me. If you want others to make the important decisions in your life; how your child is educated, who you can marry, what kinds of medications to take and how much to pay for them, then you have plenty of other choices on your ballot.

But if, when you put your hand over your heart and pledge "...with Liberty and Justice for All," you mean it, then vote for *Ruth Bennett* for Governor.

Washington taxpayers pay \$400,000 per year to have a Lieutenant Governor. Do you know what the Lieutenant Governor does? Our State Constitution says the Lieutenant Governor is to preside over the Senate, substitute for the Governor when he is out of state or incapacitated, and to serve at the request of the Governor. That is *all*. Our State Constitution also gives the legislature the authority to *abolish* the office of Lieutenant Governor.

As individuals, both in our private lives and our business lives, we are expected to be fiscally responsible. It seems very little to ask that our government be equally responsible with what is, after all, *our* money.

It has been said: "*In politics, if you want something said, ask a man; if you want something done, ask a woman.*"

As an active member of the Board of Directors of the American Society for Nondestructive Testing and its Governance committee, as the Vice-chairman of the Ultrasonics Subcommittee of the American Society for the Testing of Materials, as past Chairman of the Libertarian Party of Washington State, and as President of an engineering firm, I have the administrative experience required to lead the Lieutenant Governor's office through an effective transition.

As your Secretary of State I will work to ensure clean, fair, and constitutional elections.

New electronic voting machines bring with them an increased risk of fraud. To ensure transparency we must have voter verified paper ballots, mandatory random audits, and open source elections software.

Political parties are private organizations with the constitutional right to freedom of association, including the right to nominate their own candidates without the interference of "crossover voting" by non-members. The Primary "Election" doesn't actually elect anyone, it only selects each party's candidate for the November General Election. Incumbent Sam Reed attempted to limit your choices in the General Election (the one that actually elects people) to only two candidates! Now the Grange is trying to do the same thing with their misleadingly named "People's Choice" Initiative 872. I urge you to protect your right to choose between more than two candidates and vote against I-872.

A better solution is to eliminate the Primary "Election" altogether, and replace it with Instant Runoff Voting in the General Election. Initiative 318 will help solve our Primary Election problem and elect the candidates who truly have the most support. I urge you to sign and support I-318.

State government does not have any money of its own. It only has what it takes from you in taxes and fees. Whenever someone says "government spending," they are talking about your money. Many entrenched Olympia bureaucrats have forgotten this fact.

I haven't. That's why I am running for State Treasurer.

The Office of State Treasurer should be a model of fiscal responsibility and integrity. As State Treasurer, I will work to return your money to you and to reduce and eliminate future obligations. I will follow the constitution and work for the people of Washington State.

A Washington native, I graduated from Central Washington State University with a degree in Business Administration. My background includes being a union member, an honorably discharged disabled veteran, a successful businessman running a multi-million dollar company, and a community volunteer.

If you elect me, I will do what I can to reduce the size and scope of state government.

Vote for personal freedom, vote for less government, vote libertarian. It's simple, vote Sample for state treasurer.

Compliance with the law, accurate management of state funds, and champion for change when it is best for Washington State in the long term, these are the responsibilities of State Auditor. This office must be willing to bring to the public's attention any issue that is not in the public's best interest regardless of whether or not it is politically favorable.

If elected, all government offices will be under scrutiny and publicly accountable for their decisions. It will be a long and difficult road to efficient government, but this November we can make it happen together. Vote Libertarian.

The citizens of Washington State deserve an Attorney General who will hold the government, corporations, and other entities accountable to the people. Brad Gibson will do that job with effectiveness and professionalism. Brad understands people and the law.

As a private attorney, he has improved the lives of hundreds of individuals and families. Brad understands business. He has managed a subdivision of an Atlanta energy company, supervising over one hundred employees and also holds an MBA in addition to his JD. Brad also understands technical issues. He has a BS in Nuclear Technology and has served as a reactor operator in the U.S. Navy on the USS Enterprise.

Brad Gibson firmly believes that Government should be kept at a minimum while still maintaining a working, functioning society. Politics, in the usual sense, should also be kept to a minimum and should be for the betterment of the people, not the individual holding the office. Citizens should vote for Brad because he is not a politician and will do his best to provide sound leadership and competent management to ensure our Attorney General's office runs smoothly, efficiently, and serves the people.

State lands are a rich legacy that should be managed sanely as a personal legacy would be managed – not surrendered to the shifting demands of special interests. By considering State lands as if they were our treasured private lands, we will treat them with the care and respect they truly deserve.

As your Commissioner I will enforce laws protecting State lands from abuse by users. I will also ensure that any uses of State lands that harm adjoining private properties results in full compensation to those harmed neighbors.

I believe making polluters pay restitution to their victims is a more effective deterrent to pollution than government regulation. Restoration costs are sometimes monumental and polluters could spend the rest of their lives working to compensate their victims.

Polluters should pay for their damage, and when the government becomes the polluter, it should likewise pay for its damage to those it harms.

Like most Libertarians, the environment is extraordinarily important to me. I have a degree in zoology and am committed to clean air and clean water. I am regularly consulted about rehabilitating injured eagles and have been president of an Audubon Society chapter.

Health care costs and insurance premiums rose 2%-14% each year over the past 20 years under Democrat and Republican Insurance Commissioners. \$100 of health insurance in 1984 costs \$430 today. Do you want more of the same or a *real change*?

Patients: *Imagine* having access to the doctor of *your* choice. *Imagine* having a consumer's guide of healthcare providers to choose from. *Imagine* knowing the cost of the visit prior to seeing your doctor. *Imagine* having the money to pay cash.

Imagine choosing what services are covered by your insurance and your deductible. *Imagine* paying 25% less when excessive paperwork caused by excessive regulation is eliminated. *Imagine* a doctor who is free to provide services you really need and is not constrained by insurance or the state.

Doctors: *Imagine* filling out very few forms for insurance or patient billing. *Imagine* providing the services the patient really needs not just the services set by the limits and dictates of health and liability insurance.

Employers: *Imagine* not dreading the annual increases in insurance premiums. *Imagine* being able to afford insurance for your uninsured employees and families. *Imagine* getting the same tax breaks as your employees.

Your vote can *make it so*.

Jennifer Christensen has lived in Washington State for 28 years and has been a Seattle-area resident for the past 20 years. During this time the State has seen enormous population growth, leading to a huge increase in the demand for public services. In more prosperous times the State squandered its money on sports stadiums and other “feel-good” projects. We are now faced with a serious budget crisis, having no money to repair our crumbling, inadequate infrastructure and our failing public schools. Jennifer believes it is time for a change.

Jennifer’s priorities are: • Curbing government interference in the economy and ending corporate welfare. • Privatizing state businesses, such as the ferry system. • Paroling non-violent offenders, making room for real criminals to serve their full sentences. • Creating choice in the education system, so parents will not feel forced to send their children to sub-par schools.

If elected, Jennifer promises to address all these issues and more. It is time the residents of District 11 had real representation in Olympia. As your Senator, Jennifer will focus her efforts on the issues of the people, not special interests.

I know how taxes can break a family’s budget. In Olympia, I’d reduce taxes and eliminate the B & O tax which strangles small businesses and kills jobs. As your representative, I’d *never* vote for a state income tax, or food tax, which really hurts the elderly.

I’d replace the state gas tax with stopless tollways and peak hour pricing. We can’t build our way out of traffic, but we can *buy* our way out.

I’m for charter schools, choice and vouchers. This empowers parents instead of teacher’s unions. And I’d legalize marijuana so we can focus on real criminals instead.

Having served as Superintendent of Public Instruction for eight years, and having spent a few years viewing our schools from the “outside,” I am concerned about what I see happening, and what I don’t see happening.

Teachers don’t get enough support in the drive to improve student learning. Voters passed two initiatives to increase *school funding*, and the state has not fully funded either initiative. Now, it has once again fallen to the people to propose an initiative, I-884, which I strongly support. My highest priority will be to build a strategy for delivering the resources our schools need.

We need *balance* between comprehensive education and testing. Our state Constitution requires an education system, not a testing system. Today schools are so obsessed with what their scores will be on the state test (WASL) that providing a broad education, including civics, the arts and other important “untested” subjects, has been sacrificed.

It’s time for Common sense *teamwork* across the education system. We don’t need a muddle of overlapping boards and bureaucracies wasting time and money. Nor do we need unworkable, unfair, unfunded federal mandates. We must build partnerships and support students from their early years through high school and beyond.

I have worked in public schools for 26 years. I have worked as a teacher, counselor, assistant principal and summer school principal. I was a distinguished educator and received many scholarships and awards (including the Golden Acorn Award). I speak nine languages, have several Masters, and a Doctoral Degree.

The current population of Washington is very diverse. The school curriculum needs to be improved to reflect and celebrate this diversity. Schools need to provide better curriculum in areas i.e. technology, languages, reading, writing and global education.

The WASL, school voucher programs, school finances, mental health and the quality of teachers are priorities I also consider very important. We need to make sure the schools in Washington have adequate funding and responsibly report their spending.

The teachers in Washington need to be supported in their efforts to bring innovative ideas and programs to the classroom. Teachers need to feel valued in their contribution to the education for all students.

As State Superintendent of Public Instruction, I will work hard with the public to improve academic achievement of students and will maximize existing and future resources to ensure the students academic success in the future.

Under Superintendent Terry Bergeson, Washington schools continue to make great progress.

Achievement results have significantly improved among all ages and ethnic groups. Our students’ SAT scores have gone from the middle of the pack among states to the top tier in the nation. Washington schools lead the way with innovation, winning *over \$100 million in grants* for reading, mathematics, and science programs. Washington eighth-grade African-American students made *the biggest gains* in mathematics achievement in the nation. Statewide learning standards and graduation requirements will *make diplomas more meaningful*.

Washington teachers think creatively and help students to apply their skills, not just memorize formulas. We are better able to track student progress, help students in need and challenge high achievers. Students are learning skills they need to compete.

Terry Bergeson will continue her mission to provide increased training and improved compensation for teachers. She advocates for additional funding, and encourages our civic and business leaders to live up to their commitments to education.

We cannot go back to lower standards, low expectations, and no accountability.

Terry Bergeson knows every student deserves the opportunity to succeed. That’s why parents, teachers, and principals across Washington support Terry Bergeson.

Our schools are worse than they were in the 1960s!

As a career educator, website designer, children's advocate, and true Independent, I'm disgusted that the corporate media that ruined America's most important election ever by promoting John Kerry over Howard Dean are promoting the three clueless teachers union cheerleaders arrogantly running for this office. Bergeson and Billings represent 16 years of failure and Doyon's just another Tony Blair! I'm the only candidate speaking out against America's greatest traitors, George aWol Bush and his pal Bill Gates, who are cruelly exploiting children in public schools that have been effectively privatized.

My campaign website lists over 25 issues, focusing on protecting children from corporations, the "Seattle Mafia" and Homeland Security. Vote no on I-884; why create a state income tax when we can save BILLIONS by boycotting Microsoft and the WASL and holding corrupt school officials, teachers unions and their cronies accountable? Free open source software (like Linux) could also protect users from viruses, high-tech spies, and Microshaft's software patches and outsourcing, further boosting the economy.

Every parent should have the right, the opportunity and funds to *Individualize* the *Public Education* for each of their own children.

Therefore, I propose:

Voluntary *Individual Student Trust Accounts* be created and funded annually using each student's *existing* \$5500 state education voucher – the voucher currently going automatically to the local school district.

Each student's parents may spend these accumulating funds at the registered *Public Education Program(s)* of their choice.

A registered *Public Education Program* would be any educational program, regardless of ownership, which: Accepts only trust funds as tuition, i.e. "free;" Fills at least 80% of its openings without admission qualification, i.e. "open enrollment;"

Permits no organized devotional instruction or activities and, Publishes measurable educational and behavioral goals for its students – students not achieving these goals may be dismissed by the program at the end of any quarter.

Neighborhood Education Committees, consisting of three locally elected trustees, will oversee the public educational progress of up to 500 students. The trustees must approve parental *Education Program* choices for students passing applicable state tests.

Community Facility Districts may own, operate and maintain public buildings. Life-cycle maintenance funds will be included in the original bond funding.

If you agree, vote for John Blair.

Our founders thoughtfully set forth three branches of Government. Generally the role of the Judiciary is to interpret legislation and in the case of the Supreme Court, in particular, to interpret the State Constitution. To the Supreme Court, I will bring a dedication to the written word as well as the context of the materials under consideration, treating all cases concerning criminal, civil and legislative subjects with equal respect. My broad background as an attorney, aeronautical engineer and owner of a small business provides rich insights into how our State's laws affect each of us. The analysis and judgment required of me as I successfully represented individuals and businesses throughout this state over the past fifteen years has provided me with the necessary tools to serve both the Constitution and the public in a manner consistent with the precepts laid out by our founders.

Every case before the Court is significant, not only to the parties involved but also to each of us that will ultimately be affected by the decision. The Constitution is a legal instrument establishing the obligations of the state to its people; it protects the rights of individuals, not the power of the government.

He then practiced law for 25 years, representing small businesses, and pursued an extensive career in public service, serving as Mayor of Bellevue and as an award-winning regional leader.

In 1999 Governor Locke appointed him to the King County Superior Court, and voters have twice returned him to that position. Judge Lukens has presided over hundreds of trials and served as Chief Judge at the Kent courthouse.

Statement. Washington voters rightly expect rulings that are clear, consistent and alert to consequences. But recent rulings have faltered, including one opinion that forced retrials for more than 30 convicted murderers. It's time to reevaluate this direction, and assure common sense in the Supreme Court's deliberations.

Born on one of our nation's poorest reservations, I overcame the cycle of poverty through work and sacrifice. I understand the need to protect the accused and to restrain the power of the government, as well as the need for the government to protect the people. I have protected the rights of victims and communities and brought some of the most serious drug dealers, violent offenders, and murderers to justice.

I will apply our constitution and laws fairly and impartially, without a personal agenda based on extreme personal beliefs.

Doug, age 55, is courageous, principled, and bright. He speaks out constructively to address judicial system problems, such as the guardianship system abuses he exposed in 1995. In 2003, Justice Bobbe Bridge wrote, "Because of Schafer's actions [in 1996], a corrupt judge was exposed and the public was served by the judge's removal from office," but Bridge and her colleagues harshly disciplined Doug for exposing too much. See <http://doug4justice.org>.

Integrity of our legal and judicial system must be our highest priority. Our nine elected state supreme court justices govern our state's lawyers and judicial system. They should hold *open public meetings* to debate and adopt, as other states have, lawyer ethics rules that *require* lawyers to report serious misconduct by other lawyers and judges; that *require* lawyers to reveal client secrets to prevent anyone's *likely* death or serious bodily harm; that *require* lawyers to stop, or else report, their clients' fraud or crime; that *require* lawyers to reveal client secrets to stop child or elder abuse and to help victims of fraud or crime in which wrongdoers used the lawyer; that *require* lawyers to report corruption or lawlessness by government officials.

Doug shares the public's values and common sense.

Keep the People's Judge on the Supreme Court

Justice Richard Sanders fights to protect the rights of the people of Washington. He knows the Washington Constitution protects our rights more than federal law.

Justice Sanders' courageous opinions help to restrain the power of the state over our lives and protect our civil liberties.

Experience for the People: Justice Sanders has served nine years on the Supreme Court. He has written over 300 opinions — more than any other Justice during that time. His comprehensive and compassionate understanding of the law protects us all.

Standing Up for Us: Before being elected to the Court, Justice Sanders was a practicing attorney, fighting for the rights of citizens. Today, he defends those rights from the bench.

Broad-Based Support: Justice Sanders was a featured speaker at all three state political conventions this year: Republican, Libertarian and Democratic. Sanders attracts support that cuts across the spectrum, with endorsements including: the State Republican and Libertarian Parties; Democratic Senators; the Teamsters Union; the Association of Washington Business; the Farm Bureau; civil libertarians—and more than 1,000 endorsers.

City of Seattle Proposition No. 1

SEATTLE PROPOSITION NUMBER 1

REGULAR TAX LEVY INCLUDING FAMILIES AND EDUCATION

The City of Seattle's Proposition No. 1 concerns funding services, including Educational and Developmental Services supporting academic achievement.

This proposition would fund City services, including preschool, early-childhood education, family support, family involvement, middle-school support, out-of-school activities, supporting high-risk youth, student health, program evaluation, and school-crossing guards, under Ordinance 121529. This vote approves, for up to seven years, regular property taxes higher than the limits in Chapter 84.55 RCW, beginning with 2005 total regular taxes limited to \$3.20/\$1,000 assessed value. Not more than \$16,684,000 per year (\$116,788,000 total) can be collected for the Educational and Developmental Services.

City Attorney's Explanatory Statement

Proposition One approves a property tax increase totaling \$116,788,000 over seven years. The funding provided through Proposition One would be spent in nine major categories:

1. Preschool and early childhood education. Establish neighborhood-based early learning networks in low-income areas of the city to help children succeed in kindergarten.

2. Family support. Provide school-based family support functions for elementary schools.

3. Family involvement services. Support programs to increase family involvement in schools.

4. Middle school support. Provide school-based counseling and truancy/dropout prevention during school hours.

5. After-School activities. Support middle school academic after-school programs, athletics, and child care subsidies.

6. Support for high-risk, middle and high school age youth. Provide services for high-risk youth.

7. Student health services. Support school-based student health clinics and nurses.

8. Evaluation. Evaluate effectiveness of the above programs.

9. School crossing guards. Fund school crossing guards.

These are examples. Each year the City Council and Mayor will decide on the particular services, consistent with an implementation and evaluation plan approved by ordinance. Funding for the Seattle School District would be controlled by a Partnership Agreement approved by ordinance.

In 1990 and in 1997, Seattle voters approved "Families and Education Levy" property tax increases. Funds from the levies supported programs for children and their families both in and out of school. Each levy totaled \$69,000,000 over seven years. The 1997 levy will expire by the end of 2004.

Proposition One approves the entire regular City property tax levy for seven years and if passed could exempt the City's property tax from future statewide tax-cutting initiatives.

Statement For

Vote **YES** on the Families and Education levy to give every child and every family a chance for success in our schools.

The levy provides citywide services and a focus on:

Early Learning

Provides preschool programs for an additional 350 children each year. School-readiness is key to academic success.

Student Health

Provides nursing services and school-based health.

Out-of-School Time

Provides academically focused after-school programs for middle school students who aren't performing at grade level.

Family Support and Family Involvement

Helps families help their children succeed.

High-Risk Middle- and High-School-Age Youth

Provides help for children who need special attention to get out of trouble and get on a path for positive development and academic success.

The levy creates partnerships with teachers and principals, parents and community-based organizations to Close the Achievement Gap and help all children succeed. To ensure accountability, we will measure results to make sure we are making progress on our goals for children.

Give all children a chance for success in school! Join Mayor Greg Nickels, former Mayor Norm Rice, parents, community leaders and educators who urge you to ***VOTE YES FOR SEATTLE'S FAMILIES ON SEPTEMBER 14.***

Rebuttal of Statement Against Proposition One

We are continuing the existing Families and Education levy - this is not a new tax.

Widespread Support

Parents, educators and community leaders spent hundreds of hours meeting to develop a comprehensive plan to give every child and family a chance to succeed.

Increased Accountability

Levy programs will be held accountable for showing measurable improvements in academic achievement, attendance, student health and discipline.

A Citizen's Oversight Committee will thoroughly monitor how levy funds are spent.

PROPOSITION ONE WILL BE DECIDED IN THE PRIMARY ELECTION

City of Seattle Proposition No. 1

Statement Against

PROPOSITION ONE WILL BE DECIDED IN THE PRIMARY

We all support improving educational opportunities for at-risk children. This proposal, however, is seriously flawed and doesn't deserve community support.

Read the entire initiative text carefully. A YES vote gives the City Council a blank check to spend \$117 million on anything it wants, no matter how remote the relationship to education. Programs don't have to show they improve academic achievement. Politically connected agencies would continue to receive funding no matter how little they help at-risk students. This is not responsible government.

Seattle's 14-year experiment with "family levies" has been a failure. Very little of the \$138 million that we've spent has contributed to academic achievement. We can't afford to keep wasting time and money on ineffective programs that still leave our children behind. Nevertheless, the City Council seeks to increase spending by 69% above the 1997 levy, even though there are now fewer children in Seattle Public Schools than there were in 1997.

This ill-conceived tax increase will hurt working families more than it helps.

VOTE NO and ask the City Council for a fair and effective levy that requires all funded programs to show meaningful improvements in academic achievement.

Rebuttal of Statement For Proposition One

We reviewed all of the City's family levy evaluation reports published since 1990. Out of 25 programs, only 3 showed even slight improvements in academic achievement. Some programs actually showed a negative effect on achievement. Other programs were never evaluated or their reports were missing.

Read the initiative carefully, especially Sections 5, 6 and 7. The oversight and accountability requirements are as inadequate as before. Seattle families deserve a better deal. VOTE NO.

Complete Text of Proposition 1

AN ORDINANCE relating to regular property taxes; providing for the submission to the qualified electors of the City at a special election called on September 14, 2004, of a proposition authorizing the City to levy regular property taxes for up to seven years in excess of the 101% limitation and any other limitation on levies in Chapter 84.55 RCW for the purpose of providing City services, including providing Seattle School District public school students, Seattle youth, and their families with educational and developmental services; authorizing the creation of a new subfund; creating an oversight committee; and authorizing implementing agreements.

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Findings. The City Council makes the following findings:

a. Providing City services, including the Educational and Developmental Services described in Section 5 of this ordinance, is a City purpose.

b. The Educational and Developmental Services to be funded with Proceeds are intended to support student academic achievement and are supplemental to the basic education financed by the State of Washington and will not displace or reduce state funding for the public schools in the Seattle School District.

c. In 1990 and again in 1997, the voters of Seattle approved measures that provided funding for educational and developmental services to Seattle's children, youth, and families. These programs have proven successful at providing child care and out of school activities for more than 70,000 children and youth, providing parent education and support services to at least 110,000 families, providing academic support and intervention to more than 150,000 students, and other critical services aimed at keeping Seattle's children and youth safe, healthy, and ready to learn. An urgent need exists to continue the provision of City services, including Educational and Developmental Services to be funded with Proceeds of regular property taxes, and its urgency requires submission to the qualified electors of The City of Seattle of a proposition authorizing regular property tax levies in excess of the levy limitations in Chapter 84.55 RCW, as it now exists or may hereafter be amended, for up to seven years at a special election to be held in conjunction with the state-wide election on September 14, 2004.

Section 2. Definitions. As used in this ordinance, the following words when capitalized have the following meanings:

a. "City" means The City of Seattle.

b. "Central Administrative Support" means the City's administration and oversight of the expenditure of Proceeds and monitoring the overall effectiveness of the Educational and Developmental Services funded with the Proceeds, and identifying unmet needs for future services.

c. "Educational and Developmental Services" means the array of programs and activities referred to in Section 5, with such modifications as the City Council may from time to time authorize by ordinance.

d. "Proceeds" means that portion of regular property taxes levied and collected as authorized by voter approval pursuant to this ordinance that are above the 101% limit on levies in RCW 84.55.010, and all interest and other earnings thereon, all of which shall be deposited in the 2004 Families and Education Subfund of the Educational and Developmental Services Fund.

e. "Seattle School District" and "School District" mean Seattle School District No. 1.

Section 3. Levy of Regular Property Taxes - Submittal. The City hereby submits to the qualified electors of the City a proposition as authorized by RCW 84.55.050 to exceed the limitations on regular property taxes contained in Chapter 84.55 RCW, as it now exists or may hereafter be amended, for property taxes levied in 2004 through 2010 for collection in 2005 through 2011, respectively. In addition to funding regular City services without reduction in the regular tax levy, this proposition would allow raising \$116,788,000 in aggregate over a period of up to seven years solely to provide Educational and Developmental Services for Seattle School District students, Seattle youth, and their families. The proposition shall be limited so that the City shall not levy in any year more than \$16,684,000 in addition to the maximum amount of regular property taxes it would have been limited to by the 101% limit in RCW 84.55.010 in the absence of voter approval under this ordinance, plus other authorized LID lifts. Pursuant to RCW 84.55.050(4), the maximum regular property taxes that may be levied in 2011 for collection in 2012 and in later years shall be computed as if the levy lid in RCW 84.55.010 had not been lifted under this ordinance.

Section 4. Application of Proceeds. The Proceeds shall be deposited in the City Treasury into a special 2004 Families and Education

Subfund (the “Subfund”) within the previously established Educational and Developmental Services Fund. Moneys in the Subfund may be temporarily deposited or invested in such manner as may be lawful for the investment of City money and interest and other earnings shall be deposited in the Subfund. The principal Proceeds and any interest or other earnings from their deposit or investment shall be applied solely for Educational and Developmental Services.

Section 5. Educational and Developmental Services. Educational and Developmental Services funded by Proceeds are services designed to help address the needs of Seattle’s public school children and Seattle’s youth and their families, with the intent of promoting learning, supporting academic achievement, and increasing access to services, and the administration of those services. Initially, Educational and Developmental Services shall be provided through the following nine program components:

1. Preschool and early childhood education. Plan and establish neighborhood-based early learning networks in low-income areas of the city that take a systemic approach to helping children be ready to succeed in kindergarten. Major program elements include preschool for low-income four year olds; access for low-income families to high quality childcare; school readiness support for children in home day-care situations, including home visits; a career wage ladder program; and preschool to kindergarten transition services.
2. Family support. Major program elements include school-based family support functions for elementary schools.
3. Family involvement services. Major program elements include family involvement programs.
4. Middle school support. Major program elements include school-based mental health and social/emotional support counseling and truancy/dropout prevention and intervention during school hours. Services in this component should be coordinated with services in the out-of-school activities and support for high-risk, middle and high school age youth components when possible.
5. Out-of-School activities. Major program elements include academically focused after school programs for middle school students, middle school athletics, and child care subsidies.
6. Support for high-risk, middle and high school age youth. Major program elements include case management services for high-risk youth.
7. Student health services. Major program elements include school-based student health clinics and nursing services at clinic sites.
8. Evaluation. Major program elements include evaluation of the individual programs in the foregoing components and the overall effects of Educational and Developmental Services funded by Proceeds.
9. School crossing guards. Major program elements include school crossing guards.

These anticipated program component descriptions are only illustrative examples. In the annual City budget or by separate ordinance, the City shall from year-to-year determine the budget and allocations among the nine program components, add or delete program components or program elements within a program component, change the scope of activities or the emphasis, and, within a budget year, reallocate unexpended and unencumbered funds from one program element or program component to another. Proceeds and appropriations unexpended at the end of any budget year shall automatically be carried over to the next budget year.

Expenditures from the Subfund for Central Administrative Support by the City shall not in any budget year exceed a total of five percent of that year’s total expenditure authority from the Subfund.

Section 6. Oversight Committee. Conditioned upon voter approval of the ballot proposition submitted by this ordinance, there is established an Oversight Committee to advise the City Council concerning the implementation and evaluation plan called for by Section 7 and the Partnership Agreement called for by Section 9, to review the expenditure of Proceeds, to advise upon expenditures and allocations for the following year, and to make recommendations on the implementation of particular programs, on any reallocations of Proceeds, and on evaluations.

The Oversight Committee shall consist of twelve (12) members: the Mayor, the Chair of the City Council’s Parks, Neighborhoods and Education Committee or its successor with respect to education issues, the Superintendent of the Seattle School District, a representative of the Seattle School Board, four (4) citizens who are not employees or board members of organizations having projects or programs eligible to be funded from the Proceeds, and four (4) citizens from the diverse constituencies served by and interested in the projects and programs to be funded by the Proceeds. The Mayor shall appoint two (2) of the four (4) members from each of the above two (2) categories of citizen Committee members, and the City Council shall appoint the balance. Those eight members shall be appointed to three (3) year staggered terms subject to reappointment, except that two of them (one mayoral appointee and one Council appointee) shall be initially appointed for a single year term, three (two mayoral appointees and one Council appointee) for a two (2) year term, and three (one mayoral appointee and two Council appointees) for a three (3) year term. Upon the resignation, retirement, death, incapacity or removal of an Oversight Committee member, the authority appointing such member may appoint a replacement for the balance of the term. All members not appointed by the City Council shall be subject to confirmation by the City Council. Subject to applicable law, an individual serving as an officer, director or trustee of an entity that receives or competes for funding under this ordinance, or who has an interest in such an entity, shall not thereby be disqualified from serving on the Oversight Committee, but shall fully disclose any such relationships and shall not vote on any matter in which the interest of such entity is directly involved. Notwithstanding the foregoing, neither the Superintendent of the Seattle School District nor the representative of the Seattle School Board shall, because of their relationship with the School District, be disqualified from voting on any matter in which the interest of the Seattle School District is involved.

The Oversight Committee may adopt rules for its own procedures, including quorum requirements and the frequency of meetings. The Oversight Committee members shall select a Chair. The Oversight Committee will make annual reports to the Mayor and City Council and will prepare a mid-point report to the citizens of Seattle. The Office for Education shall provide staff and logistical support for the Oversight Committee. Members shall serve without pay, but may be reimbursed their expenses, including payments for child care while attending meetings. The Oversight Committee shall continue in existence through December 31, 2011, and thereafter if so provided by ordinance.

Section 7. Implementation and Evaluation Plan. Proceeds may be spent only in accordance with an implementation and evaluation plan (the “Plan”) approved by ordinance. The Plan may be amended by ordinance.

The Plan will set forth the criteria, measurable outcomes and methodology by which programs funded by Proceeds will be selected and evaluated. The evaluation methodology will measure both individual programs and overall effects of the Educational and Developmental Services. The achievement of all stated outcomes will be evaluated and no one component will be determinative of an individual program’s effectiveness or overall effectiveness of the Educational and Developmental Services.

City of Seattle Proposition No. 1

Section 8. Implementing Agreements. If this proposition is approved by the voters, the City may carry out the Educational and Developmental Services with City staff or by agreements with the Seattle School District, with Public Health Seattle-King County, and with such other agencies and persons as may be appropriate. The Mayor or the Mayor's designee is authorized to enter into such agreements, consistent with Section 9 below. The City will, when soliciting businesses for goods or services agreements, perform outreach to small, economically disadvantaged businesses, including those owned by women and minorities. City agreements with other public entities will encourage those entities to actively solicit bids for the subcontracting of any goods or services, when such subcontracting is required or appropriate, from qualified small businesses, including those owned by women and minorities. City agreements with businesses for goods and services and with other public entities and non-profits will encourage these entities to employ a workforce reflective of the region's diversity. All City agreements for goods and services will require the contracting entities to comply with all then-applicable requirements for non-discrimination in employment in federal, state, and City of Seattle laws and regulations.

Section 9. City of Seattle/Seattle School District Partnership Agreement. There shall be a Partnership Agreement ("the Partnership Agreement") developed by the City and the Seattle School District in which the roles and responsibilities of the City and the School District in developing the Implementation and Evaluation Plan, referenced in Section 7, and in implementing Educational and Developmental Services are established. The Partnership Agreement will set forth the parties' roles and responsibilities for achieving the Educational and Developmental Services' desired outcomes. It will outline, in a variety of areas, ways in which both the City and the School District will work collaboratively toward better results for children and youth. The Partnership Agreement may cover items including, but not limited to: data sharing necessary to implement program evaluations; standards for family support services, facility use, health service operating practices; and evaluating the feasibility of developing and implementing a school-readiness measurement system.

The City can not enter into the Partnership Agreement, or materially amend the Partnership Agreement, until the Partnership Agreement or the amendment, as the case may be, is approved by

the Seattle City Council and the Seattle School Board. Proceeds may be spent on School District programs or functions only in accordance with an effective Partnership Agreement.

Section 10. Reporting. The Director of the Office for Education will prepare and submit to the City Council and the Mayor annual progress reports on the implementation of the Educational and Developmental Services covering each of the program components and the actions taken as a result of the adopted City of Seattle/School District Partnership Agreement.

Section 11. Election - Ballot Title. The King County Director of Records and Elections, as ex officio supervisor of elections, is hereby requested to conduct a special election, which the City hereby calls pursuant to RCW 84.55.050, to be held in conjunction with the state-wide election on September 14, 2004, and to submit to the qualified electors of the City the proposition set forth below.

Section 12. Ratification. Certification of such proposition by the City Clerk to the King County Director of Records and Elections in accordance with law prior to the date of such election on September 14, 2004, and any other act consistent with the authority and prior to the effective date of this ordinance, are hereby ratified and confirmed.

Section 13. Severability. In the event any one or more of the provisions of this ordinance shall for any reason be held to be invalid, such invalidity shall not affect any other provision of this ordinance or the levy of the taxes authorized herein, but this ordinance and the authority to levy those taxes shall be construed and enforced as if such invalid provisions had not been contained herein; and any provision which shall for any reason be held by reason of its extent to be invalid shall be deemed to be in effect to the extent permitted by law.

Section 14. Effective Date. This ordinance shall take effect and be in force immediately upon its approval by the Mayor or, if not approved and returned by the Mayor within ten (10) days after presentation, then on the eleventh (11th) day after its presentation to the Mayor or, if vetoed by the Mayor, then immediately after its passage over his veto.

WORKING FOR A CANDIDATE OR BALLOT ISSUE

If you wish to become active in a candidate or ballot issue campaign, you can contact the committee listed with each candidate statement and each ballot issue argument.

MAKING CAMPAIGN CONTRIBUTIONS Candidate and ballot issue committees need campaign contributions to give voters the necessary information to make informed choices. Therefore, another method of participating in the election process is to contribute to committees organized to promote candidates or to promote or oppose ballot issues. The following are City and State regulations that apply to campaign contributions for City candidate committees, and City ballot issue committees:

- Candidate and ballot issue committees may accept in-kind, as well as monetary contributions (contributions of more than \$60 must be by check).
- No campaign may accept currency contributions of more than \$60. Contributions that total more than \$60 in the aggregate and are made by a single contributor must be made by written instrument.
- Seattle City Ballot issue committees may not accept contributions of more than \$5,000 during the last 21 days before the Primary Election or within the last 21 days before the General Election.
- The 2004 Elections cycle for issues appearing on the ballot in September or November ends on April 30, 2005. Committees are required to file a Final Report no later than May 10, 2005 for the period ending April 30, 2005.
- Campaigns are required to report occupation and employer information for contributions of more than \$100 in the aggregate. Contributors who make contributions of more than \$100 are required to provide their occupation, name, city, and state of their employer. If the contributor is self-employed, the name under which he or she does business is required.

Fire Protection District No. 2

Official Ballot Title

**PROPOSITION NO. 1
MAINTAINING THE EXISTING PROPERTY
TAX LEVY RATE FOR FIRE PROTECTION AND
EMERGENCY MEDICAL SERVICES**

The Board of Fire Commissioners of King County Fire Protection District No. 2 adopted Resolution No. 03-2004 to finance fire protection and emergency medical services. This proposition would authorize the District to levy the previously authorized rate of one dollar and fifty cents (\$1.50) per one thousand dollars (\$1000) of assessed valuation upon all taxable property within the District in 2004 for collection in 2005 without regard to limitations imposed by Ch. 84.55 RCW on annual increases in property tax revenue. This shall not be construed to authorize an excess levy and is subject to otherwise applicable statutory dollar rate limitations. Should this proposition be:

- ☐ APPROVED
☐ REJECTED

Explanatory Statement

The Burien/Normandy Park Fire Department is placing this proposition on the September 14th, 2004 ballot which would authorize the property tax levy rate to be set at \$1.50 per \$1,000 of assessed valuation. This proposition will provide voters the opportunity to exceed the limitation imposed by Initiative 747, which would limit regular property tax revenue to 101% of the previous year's revenue, regardless of the authorized rate of \$1.50 which was approved by voters in 2002.

Approval of this proposition would allow maintaining of the current level of fire response, prevention programs, and emergency medical services. Rejection would lead to the loss of more than \$312,000 in projected revenue, which would necessitate service cutbacks, including possible layoff of personnel, elimination of special services, and cancellation of future emergency equipment purchases.

This proposition meets the requirement of Initiative 747, which mandates that any increase in revenue of more than 1%, over the previous year, be approved by the voters.

Statement for

It is important that we each understand; when we reduce taxes, we are accepting less service. This is a simple question. How comfortable are you with less fire suppression, emergency medical service and fire prevention programs in our community? For my family and home, I want the best protection that I can get. This is the cheapest insurance you'll ever buy, and it's not more money than we have been willing to pay in past years. Your Fire Department is being tasked with more and more responsibility. Don't make them try to do it with less funding. Remember, they are your first line of defense in Homeland Security. Voting YES will restore fire department funding to the level that it has historically been in Burien. Vote YES on this proposition and provide the same level of tax funding that is the standard for the fire service in all of the surrounding communities. As a resident of Burien since 1966, I urge you to help your fire department in doing the tough job that they are here for. Vote YES for your own protection.

Fire Protection District No. 20

Official Ballot Title

**PROPOSITION NO. 1
INCREASING PROPERTY TAX LEVY RATE
FOR FIRE PROTECTION AND EMERGENCY
MEDICAL SERVICES**

The Board of Commissioners of King County Fire Protection District No. 20 adopted Resolution No. 04-08-253 to finance fire protection and emergency medical services. This proposition would authorize the District to restore its regular property tax levy rate to one dollar and fifty cents (\$1.50) per one thousand dollars (\$1000) of assessed valuation upon all taxable property within the District in 2004 for collection in 2005 without regard to limitations imposed by Ch. 84.55 RCW on annual increases in property tax revenue. This shall not be construed to authorize an excess levy and is subject to otherwise applicable statutory dollar rate limitations. Should this proposition be:

☐ APPROVED
☐ REJECTED

Explanatory Statement

If approved by the voters, the proposition will authorize the District to levy regular real property taxes at a rate not to exceed \$1.50 per thousand dollars of assessed valuation. The actual levy rate will be established by the Board of Commissioners. The current levy rate is \$1.34 per thousand dollars of assessed valuation.

The levy will continue to be a regular property tax levy subject to the statutory exemptions and is not an excess levy.

The District Board has found that the tax levy and the revenue it will produce is necessary to maintain the current level of services, fire fighter staffing, equipment and facilities, the purchase of equipment and apparatus to continue to improve services for the protection of life and property in the District and to enhance public safety.

If the levy is approved, the maximum tax on a \$100,000 assessed valuation residence would be increased by \$16.00 each year or approximately \$1.33 per month for the emergency services.

Statement for

For over sixty years our firefighters have been protecting your family, home and property from fire and other life threatening emergencies. A "YES VOTE" will ensure a continuation of those high quality Fire Department services and allow the firefighters to meet the increasing demand for service. A YES VOTE on PROPOSITION 1 will reauthorize the Fire District to collect \$1.50 per thousand dollars of assessed valuation for one year and help keep your Fire District strong. Give them the ability to continue providing quality emergency services to you. Our firefighters are always there when we need them. Now it's our turn to help them when they need our support.

Thanks for voting YES, and thanks for caring about our community.

North Highline Fire District No. 11

Official Ballot Title

**PROPOSITION NO. 1
MAINTAINING THE EXISTING PROPERTY
TAX LEVY RATE FOR FIRE PROTECTION AND
EMERGENCY MEDICAL SERVICES**

The North Highline Fire District Commissioners adopted Resolution No. 383 to finance fire protection and emergency medical services. This proposition would authorize the District to levy the previously authorized rate of one dollar and fifty cents (\$1.50) per one thousand dollars (\$1000) of assessed valuation upon all taxable property within the District in 2004 for collection in 2005 without regard to limitations imposed by Ch. 84.55 RCW on annual increases in property tax revenue. This shall not be construed to authorize an excess levy and is subject to otherwise applicable statutory dollar rate limitations. Should this proposition be:

☐ APPROVED
☐ REJECTED

Explanatory Statement

North Highline Fire District, a junior taxing district located in King County, is placing a lid lift proposition on the September 14, 2004 ballot. This proposition will authorize the property tax levy rate to remain as it has since 1990 at \$1.50 per \$1,000 of assessed valuation. The proposition is presented to provide our voters the opportunity to exceed the limitation imposed by Initiative 747, which would limit total property tax revenue to 101% of the previous year's revenue, regardless of the authorized dollar rate limitation of \$1.50 as approved by voters.

This proposition meets the requirement of Initiative 747, mandating that any increase in revenue of more than 1% over the previous year, be approved by the voters.

Approval of this proposition would allow the department to maintain its current level of emergency services and its insurance rating of "3", which places the department in the top 4% of fire departments in Washington. Passage of this proposition would enable our department to maintain current staffing of aid cars and meet the increasing emergency call volume, as well as stay current on all life-saving advances in the fire service and homeland security. Rejection of this proposition would lead to the loss of almost \$140,000 in projected tax revenue, necessitating possible service level cutbacks (including unstaffing of our aid cars), and possible equipment purchase cancellations, elimination of special services to citizens, and jeopardize our department's excellent insurance rating that our citizens have come to expect from their fire department.

Statement for

Due to the enactment of Initiative 747 which overturned the longstanding regulation that allowed fire departments up to 6% as inflation increase without further voter authorization, the North Highline Fire District could experience an approximately \$140,000 decline in its 2005 budget.

Our department currently strives to maintain its expected high level of service to us, the citizens, through excellent management and by conserving resources; however, normally occurring inflation and an increase in emergency calls over last year have resulted in projected shortfalls. This deficit will eventually result in the degradation of our fire department and its ability to provide us critical life-saving services and Homeland Security requirements by possible reduction of firefighters and emergency equipment.

We must pass Proposition 1 to maintain fire department funding at the same level that existed for the last 15 years. Our firefighters need our help and support. They always rush in to help us when we are in need. Our fire department rewarded us by improving their insurance rating from a Class 4 to a Class 3, placing North Highline Fire District in the top 4% of fire departments in our State. VOTE YES so our firefighters have the tools to do their job when we need them most (in life-saving emergencies)!

King County Rural Library District

Official Ballot Title

PROPOSITION NO. 1

KING COUNTY LIBRARY SYSTEM

LIBRARY CAPITAL IMPROVEMENT BONDS

The Board of Trustees of the King County Rural Library District, doing business as the King County Library System, adopted Resolution 2004-03, concerning funding for capital projects at every library throughout the System. This proposition would replace funding previously provided by the 1988 capital bonds and authorize the System to acquire, construct, equip and furnish new libraries; renovate, expand and upgrade existing libraries; acquire new books, materials and equipment; and undertake other capital improvements throughout the System; incur indebtedness, issue no more than \$172,000,000 of general obligation bonds maturing within 20 years, and levy annual excess property taxes to pay and retire such bonds, all as provided in Resolution 2004-03. Should this proposition be:

☐ APPROVED
☐ REJECTED

Explanatory Statement

This proposition will authorize the King County Library System to incur indebtedness and up to \$172,000,000 in general obligation bonds to finance capital improvements throughout the Library System. The funding provided by the bonds would take the place of funding previously provided by library capital improvement bonds approved by voters in 1988. The bonds would fund the costs undertaking a ten-year plan for capital projects at every library throughout the Library System to acquire, construct, equip and furnish new library facilities, to renovate, expand and upgrade existing library facilities, to acquire new books, materials and equipment, and undertake other capital improvements throughout the Library System. If approved, the bonds authorized will be sold as needed, mature within 20 years of issue, and be repaid through annual levies of property taxes.

Statement for

King County residents have one of the finest and busiest Library Systems in the nation with highly valued collections, technology, programs, and support for students, adults, seniors and community groups.

Library use has increased 40% in the last decade, but library facilities are aging and maintenance costs have escalated. Voter-approved bonds are the only way to fund basic maintenance and improve existing facilities.

This capital bond will fund the Library System's construction and maintenance needs over the next decade. It replaces a retiring 1988 voter-approved bond.

All 43 branches will be improved:

Sixteen worn-out libraries too costly to repair will be replaced.

Three new libraries will be built in areas without service.

Crowded libraries will be expanded.

Necessary maintenance and upkeep will be covered.

Taxes will not increase. This bond will cost less than the expiring 1988 bond — \$25/year for the average household.

Vote YES - support your library.

Rebuttal of statement against

Every bond issue and every loan is described by the amount of the principal, and to describe this measure differently would be misleading.

Taxes to pay the 1988 bonds are declining. Taxes to pay this measure will gradually increase. KCLS has carefully calculated that the average cost will be less per year per household. This is not a tax increase, rather a continuation of the current level of support.

Visit kcls.org for more information.

STATEMENT PREPARED BY: Louise Miller, Karen E. Glover,
Mark W. Berry

Statement against

This proposal omits both inescapable interest costs, on \$172,000,000, and also unfortunate penalties, at 12%, when senior citizens and less-well-off families pay their property taxes even one-day late.

King County libraries' official website disguises **\$350 million** in additional tax liens against all homes as "a replacement bond" for \$67,000,000, still being collected, by claiming "our current bond measure will soon expire."

Actual pay-off is in 2011: ***after up-to-seven years of double taxation through intentional deceit.***

With Internet growth reducing genuine library-facility needs, this **\$350,000,000** tax-dodge is as ill-conceived as intellectually dishonest. Even libraries' worthy ends cannot justify Machiavellian means.

Federal law forces loansharks handing \$172 to homeowners to reveal ***all costs*** – including ***interest***. This ballot deceptively camouflages a **\$350,000,000** lien as \$172,000,000.

Government officials must act as honestly as loansharks, and ***never again*** distort taxpayer-financed websites to validate Justice Tom Chambers' recent dissenting opinion about our Supreme Court "failing its constitutional duty to protect the legislative role of the people by permitting inaccuracies, false representations, and clever manipulation of these processes."

Bad people promoting evil ***directly*** endanger democracy less than good people escalating taxes ***deviously*** – and jeopardizing our least-financially-capable neighbors' homes ***literally***.

Vote No.

For further information, contact TruthinTaxes@verizon.net.

Rebuttal of statement for

King County libraries' omissions and misrepresentations are inexcusable – particularly when imperiling our community's most vulnerable – but supporters' central claim here is worse.

Premeditated ***double taxation*** is ***NOT*** "the only way to fund basic maintenance and improve existing facilities."

The libraries' website gives the lie to this self-serving dishonesty, ***twice***, by identifying available "funding through a combination of hard choices" – so part of the \$73.5 million annual-tax "levy could be used for the capital budget."

Why the new Primary?

“We know there is a lot of work to do before everyone is ready to vote; most people still aren’t aware of all that has happened. However, your vote is too important for it not to count.”

Washington State has a new primary system that will change the way you vote for the first time in almost 70 years. The new system requires you to select a party preference if you want to vote for candidates for partisan office. For the first time, you may only vote for the candidates of one political party in the primary. Your privacy will be protected; no record of your political party preference will be made. Your opportunity to vote for candidates for nonpartisan office is not affected by this new law. There is no change in voting for the General Election in November.
